Respected Prof. Syed Mumtazuddin Sir,
Vice Chancellor,
Veer Kunwar Singh University,
Bihar.

Greetings from IIT Bombay !!

It is a pleasure talking to you. As per our discussion, I am sharing you the Program details kindly have a look at it and we'll jointly plan the implementation procedure accordingly for all the students.

Spoken Tutorial is a successful IT/Software training program under which we are providing free software trainings on various IT courses ranging from Basic IT Skills to Programming Languages to Job Oriented courses From IIT Bombay along with the certificates. Colleges and Universities are always looking to introduce ICT-based learning and the latest of Software skills.

Spoken Tutorial Software training Program, a **GOOGLE** award winning MOOCs, is a **project of National Mission on Education through ICT, fully powered by Ministry of Human Resource Development (MHRD), Govt. of India** and developed at IIT Bombay.

The courses, certification & guidance are all for **FREE OF COST**.

The leading objectives of the project are to **improve the Employment potential of students by teaching them IT skills**, promote the use of free and open source software, **enhance the accessibility of IT education**, and increase penetration of computer literacy.

One can learn the software not only in English but also in **Hindi** and many other Indian languages. The tutorials can be considered as an E-Resource to help students learn & master variety of Open Source Software on their own without needing the help of expert teachers.

Sample Software tutorials are **Linux- Ubuntu, LibreOffice Suite, LaTeX, JAVA, Drupal, PHP and MySQL** and many more valid for Engineering as well as Non-Engineering Departments viz. Education, Pharmacy, Law, Architecture, Commerce, etc.

We have partnered with various Universities across the country: India (Kindly see) and trained more than 34 Lakh students through distance learning mode. We have done lot of IT training and have successfully partnered with universities. Now we want to extend our program to your University too.

The Implementation procedure will be, a Central Coordinator & Faculty Coordinator(s) will be nominated from each department who will be registering with us as an Organiser. Further, the Coordinators have to prepare the excel sheets which will include the details (First Name, Last Name, Email ID & Gender) of all the students for the enrollment procedure. Then they'll be allotted courses department wise followed by Certification. I want to assure you that **faculty will not have any added work**, only initially they will work with us regarding the enrollment & arranging the training.

In reference to it, kindly nominate a Central Coordinator who will be dedicatedly Coordinating with us regarding the smooth implementation of the program.

Feel free to call/mail regarding queries.
